Image with no alt text.Apple has removed 13 apps from the App Store after researchers discovered them were loaded with malicious code that can steal the user's login credentials. Friday's advisory is not the first time Apple has been forced to remove dangerous apps from its store. Apple removed a number of apps from the App Store in 2016 that were found to contain code with malicious exploits. "We discovered an issue with a set of 13 apps that are available on the App Store that could lead to the theft of authentication credentials," Apple says. "Our analysis did not find
