

January 4, 2022 - The Witcher 3: Wild Hunt. The Witcher games are teeming with every kind of fantasy magical sex imaginable, to the point where the game is. In The Witcher 3, sex in the game is taken very seriously for the most part, with tons of options and ways to play with them. The game has both very simple sex - in which case it works as usual - and interesting sex that allows you to make difficult decisions about relationships and what happens next. But since this is a really hard game, it will take quite a bit of effort to make it work. Here's how to figure it out.
