Panzer Paladin is a chiptune 2D adventure game in which you play as Carter, a secret agent who has his special abilities, memory and make up. One day, his partner, Bob, is kidnapped by the local crime lord, who orders Carter to track him down. As the game progresses, the player will be able to explore a large variety of locales, while solving simple puzzles, and using Carter's abilities and special skills. In this location-based indie game, the player progresses through the game by completing quests and interactions with side-quests. The one in this game has to escape from the city in the middle of the night with a tank, avoiding police, other dangerous villains, and the criminal who abducted him. The story is developed through a series of short stories that the player will have to interact with through side quests, sequences and dialogue. The game will also have interactive sequences, short minigames and sequences to unlock different stages of the game. This is the first in a series of chiptune top-down games. As an open-world chiptune based game, you will navigate the city and complete quests with your tanks, your jetpack and your silent invisibility and agility drones. You will explore the city, make a lot of noise and have your adventure. Featuring the voices of game designer Patrice Bourgeault, a professional musician with 20 years of experience in the chiptune scene and a team of animators, this game is not only a chiptune adventure, but a complete adventure game that revolves around a new genre: the stealth chiptune adventure. Features: Open world adventure in chiptune Explore the city on foot, or in your tank or jetpack to complete quests Chiptune environment with a number of non-linear points of interest You will have access to a number of items that will be used at the same time: your backpacks, jetpack, tank and your drone. Use stealth to avoid detection and be ready to take the scene by surprise. Various dangers and distractions, like raids, fights, police, etc. You will be able to earn "credits" and use them to buy new items, items upgrades and vehicles to get to the next level. Use your drones to explore the environment, discover your enemies, and to use item as shortcuts to the level. 1. Complete the tutorial, play the game, and try different

Lecturer Virtually everyone has at some point in their life had the experience of being in a classroom, learning from someone in authority. There's a special thrill to be said about moving to the front of the class and identifying yourself as the trainer, offering challenges to draw discussion, questioning to debate and knowledge to both challenge and reinforce. These days though, the traditional classroom has been supplanted by the television screen and the internet. Let alone a teacher, we can all be trainers of one kind or another. It may just be that the techniques are not the same, c9d1549cdd
