
conservation and energy efficiency, as well as reducing the waste stream. The following recyclable materials are accepted as refuse at SMC's recycling centers: Bottle-Glass Milk Jugs (no plastic lid or pull tab) Aluminum White Paper Cardboard (no plastic or film-covered paper products) Plastics (no film or metal in food containers) Detergent containers and bottle caps Recycling fees are \$.65 per 25 pounds for paper, and \$.30 per beverage (bottle-glass, milk containers, etc.) for a maximum of four items per household per billing period. SMC encourages residents to take advantage of the recycling centers to avoid getting rid of unwanted recyclable materials. All items accepted for recycling are sorted using machines and are separated into individual recycling bins. Materials must be collected in those bins by the appropriate pickup date for the materials to be recycled. SMC's

recycling centers operate on a daily basis from 7:00 a.m. to 4:30 p.m. When visiting the recycling center, always remember to bring your recyclable materials with you, so the staff can properly sort and process the materials.

SSH is a common networking technology, which has two primary advantages, namely: 1. it supports key exchange in the clear (unencrypted), and 2. the SSH protocol is free and open (source is available). SSH includes functionality for communicating with remote systems, such as servers, by using secure shell connections. As SSH is a popular communication protocol, SSH client software is often incorporated on a computer to allow a user to access systems or networks via a secure connection.

SSH may also be used for passwordless access. SSH is offered as a security service by some Internet service providers. Typically, the service works by

providing SSH 6d1f23a050
